

OKLAHOMA GEOLOGICAL SURVEY
Chas. N. Gould, Director

MAP OF THE
WILBURTON-RED OAK COAL FIELD.

INCLUDING THE NORTHERN AREA ABOUT QUINTON AND FEATHERSTON AND THE SEGREGATED DISTRICT IN THE VICINITY OF MASSEY.

This map was compiled from data secured from the various publications of the United States Geological Survey concerning the Oklahoma Coal Fields, especially Senate Document No. 390; field work of the Oklahoma Geological Survey, 1910-1914, and from information furnished by the various Coal Companies operating in the field. Revised June, 1926.

- Unleased Tracts
- Leased tracts.
- Outcrop of Hartshorne Coal.
- " Mc. Alester
