Oklahoma Geological Survey Open-File Report Disclaimer

Open-File Reports are intended to make the results of research that fills a public need available at the earliest possible date. Because of the possibility of that information being superseded by more complete research results, an Open-File Report is intended as a preliminary report not as a final publication. Analyses presented in this article are based on information available to the author(s), and do not necessarily represent the views of the Oklahoma Geological Survey, the University of Oklahoma, their employees, or the State of Oklahoma. The accuracy of the information contained herein is not guaranteed and any mention of trade names is not an endorsement by the author, the Oklahoma Geological Survey, or the University of Oklahoma.

The Oklahoma Geological Survey is a state agency for research and public service, mandated in the State Constitution to study Oklahoma's land, water, mineral and energy resources and to promote wise use and sound environmental practices.

INTRODUCTION

The following guidebooks were collected from 2012 to 2017. The list contains guidebooks that are accessible through the University of Oklahoma (OU) or Oklahoma State University (OSU) library systems, interlibrary loan, or local/national professional organizations. If they are not readily available, they are not in this list; for example, most of the early (1924-1932) Oklahoma Geological Survey field conferences (some of which are only available through OU's Western History Collection or are not available at all). Only the 10th (1927) and the 18th (1930) Oklahoma Geological Survey field conferences are included in this list and are available through OU's library system. The following organizations or companies have field trips listed in this publication (the number of their trips listed is shown):

American Association of Petroleum Geologists (AAPG): 23	Oklahoma Industrial and Mineral Industries Conference: 1
American Association of State Geologists: 1	OU Sigma Gamma Epsilon Chapter: 6
American Association of Stratigraphic Palynologists: 2	Panhandle Geological Society: 3
American Institute of Biological Sciences: 1	Pick and Hammer Club: 1
American Institute of Professional Geologists (AIPG): 4	Salisbury Department of Geology, Beloit College: 1
Ardmore Geological Society: 23	Society of Economic Paleontologists and Mineralogists (SEPM): 7
Association of Missouri Geologists: 2	Self-published: 1
Baylor Geological Society: 1	Shell Oil Company: 1
Baylor University Press: 1	Shreveport Geological Society: 6
Boy Scouts of America: 1	Society of Vertebrate Paleontologists: 1
Conoco Exploration Research Division: 1	Sohio Petroleum Company: 1
Dallas Geological Society: 4	South Central Friends of the Pleistocene: 1
East Texas State University Geological Society: 2	Stratigraphy (peer-reviewed journal): 1
Flintstone Rock Club: 1	Texas Christian University: 1
Fort Smith Geological Society: 1	Tulsa Geological Society (TGS): 24
Fort Worth Geological Society: 1	University of Oklahoma School of Geology and Geophysics: 3
Geological Society of America (GSA): 26	Shawnee Geological Society: 2
Indiana University Department of Geology: 1	University of Houston: 1
Kansas Geological Society (KGS): 11	University of Iowa: 1
Mid-Continent Coalbed Methane and Gas Symposium II: 1	University of Texas at Dallas: 1
Midwestern University Geological Society: 1	United States Geological Survey (USGS) (2nd International Symposium on the Cambrian System): 1
North Texas Gem and Mineral Society: 1	USGS (International Geological Congress XVI session, United States): 1
North Texas Geological Society: 1	West Texas State University: 1
Oklahoma City Geological Society (OCGS): 23	
Oklahoma Geological Survey (OGS): 65	
Oklahoma Academy of Science: 11	
Oklahoma A. & M. College (Oklahoma State University): 1
