Note: All casing point #'s have 50 feet added to them and are in blue. Estimated points in blue followed by E. These points are where logs were shielded from Base of Marlow by surface casing but they came close so the nearest log with log readings to Base of Marlow is used for thickness of zones not seen, to extrapolate an estimated depth.

Key Logs

Log Sec. 36-14N-13W - Sunray Mid-Continent - #1 Baker and Baker Relief #1
Tops from Jordan & Vosburg Oklahoma Geological Survey Bulletin 102
