## **Oklahoma Geological Survey Open-File Report Disclaimer**

Open-File Reports are used for the dissemination of information that fills a public need and are intended to make the results of research available at the earliest possible date. Because of their nature and possibility of being superseded, an Open-File Report is intended as a preliminary report not as a final publication. Analyses presented in this article are based on information available to the author, and do not necessarily represent the views of the Oklahoma Geological Survey, the University of Oklahoma, their employees, or the State of Oklahoma. The accuracy of the information contained herein is not guaranteed and any mention of trade names are not an endorsement by the author, the Oklahoma Geological Survey, or the University of Oklahoma.

The Oklahoma Geological Survey is a state agency for research and public service, mandated in the State Constitution to study Oklahoma's land, water, mineral and energy resources and to promote wise use and sound environmental practices.

## 1900 – 1909

Gould, C. N., L. L. Hutchison, and G. Nelson, 1908, Preliminary report on the mineral resources of Oklahoma: Oklahoma Geological Survey Bulletin 1, 88 p.

## 1910 – 1919

Cullen, John, 1917, Lime resources and industry of Oklahoma: Oklahoma Geological Survey Bulletin 26, 70 p.

Hutchinson, L. L., 1911, Preliminary report on the rock asphalt, asphaltite, petroleum and natural gas in Oklahoma: Oklahoma Geological Survey Bulletin 2, 256 p.

Shannon, C. W. and L. E. Trout, 1915, Petroleum and natural gas in Oklahoma, Part 1 – General information concerning oil and gas: Oklahoma Geological Survey Bulletin 19, 133 p.

Shannon, C. W. and others, 1917, Petroleum and natural gas in Oklahoma, Part 2 – A discussion of the oil and gas fields and undeveloped areas on the state, by counties: Oklahoma Geological Survey Bulletin 19, 536 p.

Snider, L. C., 1917, Geography of Oklahoma: Oklahoma Geological Survey Bulletin 27, 325 p.

Snider, L. C., 1911a, Preliminary report on the clays and clay industries of Oklahoma: Oklahoma Geological Survey Bulletin 7, 270 p.

Snider, L. C., 1911b, Preliminary report on the road materials and road conditions of Oklahoma: Oklahoma Geological Survey Bulletin 8, 191 p.

## 1920 – 1929

Beckwith, H. T., 1927, Oil and Gas in Oklahoma: Geology of Osage County: Oklahoma Geological Survey Bulletin 40-T, 62 p.

Brown, R. W., 1928, Origin of folds of Osage County, Oklahoma: American Association of Petroleum Geologists Bulletin, v. 12, p. 501-513.

Gouin, G. T., 1925, A study of the economic value of certain limestone deposits in Osage County, Oklahoma, relative to highway development: unpub. thesis (College of Engineering), University of Oklahoma, 28 p.

Powers, Sidney, 1926, Oil and Gas in Oklahoma: Petroleum geology in Oklahoma: Oklahoma Geological Survey Bulletin 40-G, 24 p.

Stephenson, C. D., 1929, An oil field in T. 25 N., R. 8 E., Osage County, Oklahoma: American Association of Petroleum Geologists Special Publication 4, Structure of typical American oil fields, v. II, p. 378-395.

## 1930 – 1939

Bass, N. W., C. Leatherock, W. R. Dillard, and L. E. Kennedy, 1937, Origin and distribution of Bartlesville and Burbank shoestring oil sands in parts of Oklahoma and Kansas: American Association of Petroleum Geologists Bulletin, v. 21, p. 30-66.

Leatherock, C. and N. W. Bass, 1936, Chattanooga Shale in Osage County and adjacent areas: American Association of Petroleum Geologists Bulletin, v. 20, p. 91-101.

## 1940 – 1949

Bass, N. W., L. E. Kennedy, J. N. Conley, and J. H. Hengst, 1942, Subsurface Geology and Oil and Gas Resources of Osage County, Oklahoma: US Department of the Interior, Geological Survey Bulletin 900, p. 83-129

Beach, J. O. and S. G. English, 1940, Dolomite and magnesium limestone: Oklahoma Geological Survey Mineral Report 6, 20 p.

Burwell, A. L., 1942, The possibility of magnesia from Oklahoma oil field brines: Oklahoma Geological Survey Mineral Report 14, 26 p.

Dott, Robert H., 1942, Geology of Oklahoma ground water supplies: Oklahoma Geological Survey Mineral Report 11, 36 p.

Dott, Robert H., J. O. Beach, Neal T. Dilday, and Albert L. Burwell (compilers), 1944, GM1. Minerals of Oklahoma: Oklahoma Geological Survey Geologic Map 1, scale 1:750,000, 1 sheet.

English, H. C., 1949, An engineering study of gas injection in the South Burbank unit, Osage County, Oklahoma: unpub. MPE thesis, University of Oklahoma, 113 p.

English, S. G., Robert H. Dott, and J. O. Beach, 1940, Limestone analyses: Oklahoma Geological Survey Mineral Report 5, 28 p.

Lukert, L. H., 1949, Subsurface cross sections from Marion County, Kansas, to Osage County, Oklahoma: American Association of Petroleum Geologists Bulletin, v. 33, p. 131-152.

Mohler, C. E., 1942, A field study of the Iola Formation of Osage and Tulsa Counties, Oklahoma: unpub. MS thesis, University of Oklahoma, 45 p.

Skelton, Alan G., 1944, Bibliography of oil pool names in Oklahoma for 1942: Oklahoma Geological Survey Mineral Report 17, 48 p.

## 1950 – 1959

Arbenz, J. Kasper, 1956, Tectonic map of Oklahoma: Oklahoma Geological Survey Geologic Map 3, scale 1:750,000, 1 sheet.
