

A
Southwest

A'
Northeast

Upper detail cross section: vertical scale: 1 in. = ~84 ft. Encompasses Morrow through upper Mississippian strata; includes porosity and gamma-ray logs.

Lower generalized cross section: vertical scale: 1 in. = ~200 ft. Encompasses lower Pennsylvanian (Atoka) through upper Ordovician strata; includes resistivity, conductivity, SP, and gamma-ray logs.

Note: Both cross sections portray the same wells.

PLATE 4
STRATIGRAPHIC CROSS SECTION A-A' (SOUTHWEST-NORTHEAST, ADA OUTCROP TO BRAGGS MOUNTAIN OUTCROP)
