OKLAHOMA GEOLOGICAL SURVEY—NOVEMBER 1982

Oklahoma Geological Survey
Charles J. Mankin, Director
The University of Oklahoma
Norman, Oklahoma

Special Publication Series

The Oklahoma Geological Survey's Special Publication Series is designed to bring new geologic information to the public in a manner efficient in both time and cost. The material undergoes a minimum of editing and is published for the most part as a final, author-prepared report.

Each publication is numbered according to the year in which it was published and the order of its publication within that year. Gaps in the series occur when a publication has gone out of print or when no applicable publications were issued in that year.

This publication is issued and printed by the Oklahoma Geological Survey as authorized by Title 70, Oklahoma Statutes, 1971, Section 3310, and Title 74, Oklahoma Statutes, 1971, Sections 231-238. 600 copies have been prepared for distribution at a cost to the taxpayers of the State of Oklahoma of \$1474.

OKLAHOMA GEOLOGICAL SURVEY CORE AND SAMPLE LIBRARY

2725 Jenkins Avenue
Norman, Oklahoma 73019

Manager: Eldon Cox
Phone: (405)325-4386

POLICY GOVERNING THE DONATION OF MATERIALS TO THE LIBRARY:

Cores and samples (cuttings) donated to the library become the property of the OKLAHOMA GEOLOGICAL SURVEY and will be retained permanently for use by the public.

The library will hold materials confidential for one year at the donor's request.

The library is not able to store out-of-state material.

The library cannot accept shipments of material on a collect basis.

All cores and samples must be identified as to operator, fee, geographic location (section, township, and range).

The library requests that samples (cuttings) be washed and packaged.

POLICY GOVERNING THE USE OF ALL MATERIALS IN THE LIBRARY:

Cores may be examined at the Library for \$3.00 per box. Cores may be borrowed from the Library for \$5.00 per box for 30 days and the borrower pays shipping charges. A late charge of 25 cents per box per day will be charged for cores that are returned later than 30 days. With permission, cores may be slabbed by the borrower at his expense, and plugs may be cut from one half of the core (the other half must be kept intact). Both halves must be returned to the library.

Samples (well cuttings) that are not available from commercial libraries may be examined at the Library for \$2.00 per box and may be borrowed for \$3.00 per box for 30 days. The borrower is to pay all shipping charges. A late charge of 20 cents per box per day will be charged for samples that are returned later than 30 days.

Note: The asterisk (*) after the depth range indicates core chips.

Formation name is the name furnished by the donor of the core. The Library is not responsible for the formation identity.

Cores taken by Oklahoma Geological Survey, various governmental agencies, and mining companies are not listed in this catalog. For information concerning these cores, contact the Library.

Please advise us of any errors you discover in this catalog.

Students and faculty from academic institutions may borrow without charge reasonable amounts of cores and samples, subject to the following rules:

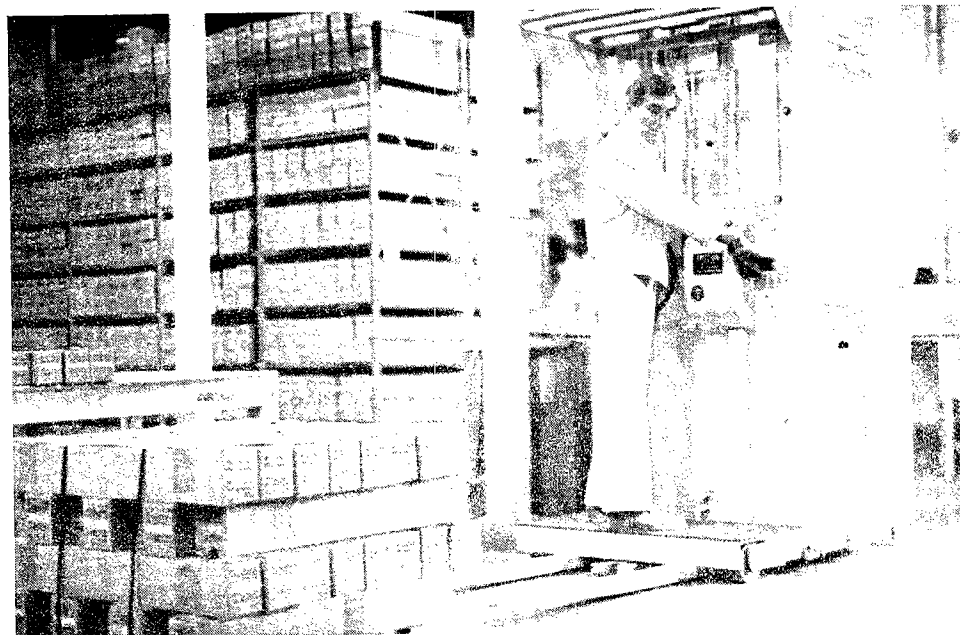

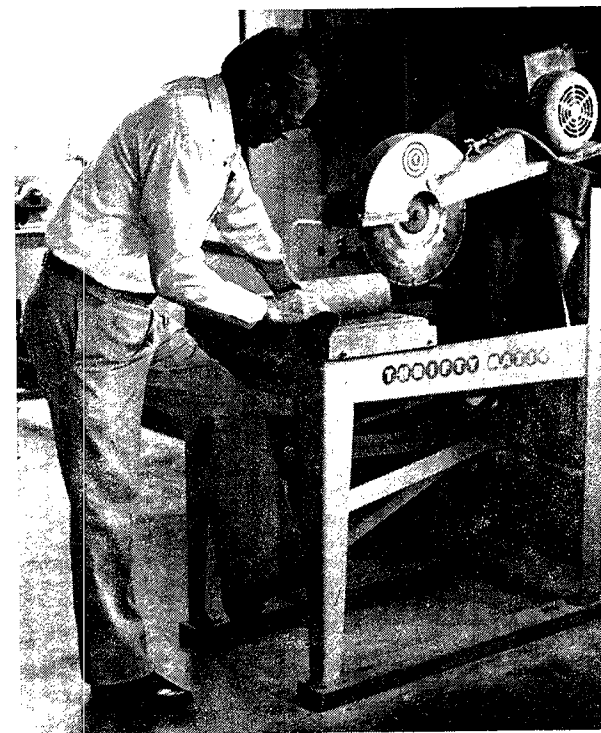

1. Copies of the work resulting from such studies must be given to the Oklahoma Geological Survey, where they will be placed on open file.
2. The borrower must return the material, in good condition, within 30 days.
3. Specimens must not be picked from the boxes without permission.
4. The borrower is responsible for all expenses involved in transporting the material to and from this Library.

. . . a valuable resource

the materials in the Oklahoma Geological Survey

Core and Sample Library provide a valuable
resource for those in geologically related fields.

Core and Sample Library manager Eldon R. Cox (below, left) prepares to cut a core (above, right) in the Library's examination room. Assistant Walter C. Esry, (below, right) moves cores which have been carefully wrapped and bound on wooden pallets to protect against damage which might result from rough handling by shippers.

List of Abbreviated Formation Names

ARB - Arbuckle

CAR - Carpenter

CHER - Cherokee

CHES - Chester

HN - Hunton

LAY - Layton

MER - Meramec

MISS - Mississippi

OSW - Oswego

R F - Red Fork

SIMP - Simpson

SPR - Springer

SYL - Sylvan

WHIT - Whitney

WDF - Woodford

VI - Viola
