This publication, printed by the Oklahoma Geological Survey, is issued by the Oklahoma Geological Survey as authorized by Title 70, Oklahoma Statutes, 1981, Section 3310, and Title 74, Oklahoma Statutes, 1981, Sections 231-238. 500 copies have been prepared for distribution at a cost of $2,798.00 to the taxpayers of the State of Oklahoma. Copies have been deposited with the Publications Clearinghouse of the Oklahoma Department of Libraries.
PREFACE

Although classes began at The University of Oklahoma in 1892, no instruction in geology was offered until the arrival of Charles Newton Gould in 1900. In the early years, requirements for the Bachelor of Arts degree in geology included preparation of a written thesis. The first to earn this degree was Charles T. Kirk, who was awarded his diploma in 1904. Only a few of these B.A. theses were written, but since that 1904 beginning, approximately 900 theses and dissertations have been accepted as partial requirement for degrees in geology and geophysics. These are listed herein.

Theses from the College of Engineering believed to be of interest to petroleum geologists and geophysicists have been included in this list. Subjects include reservoir properties, exploration techniques, and energy-resources evaluation.

Theses and dissertations are listed by author and by date and are indexed according to localities covered. For convenience of reference, an outline map showing counties in Oklahoma is included at the back of the catalog.

Copies of most of the theses are available for inspection in Bizzell Memorial Library of The University of Oklahoma, and in the Geology and Geophysics Library in Gould Hall on campus. The selected engineering theses can be found in Bizzell Memorial Library and in the campus Engineering Library in Felgar Hall. Theses and dissertations can be obtained through Interlibrary Loan on request through any official library. The request should be addressed to the Interlibrary Loan Office, University of Oklahoma, Bizzell Memorial Library, 401 W. Brooks, Norman, Oklahoma 73019. Also, dissertations accepted since 1955 can be purchased from University Microfilm, 300 North Zeeb Road, Ann Arbor, Michigan 48106, either in microfilm or hard copy.

Earlier compilers of this title were Lucy Finnerty, Kay Keener, and Betty Ham. Their significant contribution is hereby acknowledged.
